2. **With the enclosed tool (Lever) set the tabs of the panel protector into the side grooves (2 tabs).**

   Put the lever on the tabs of the panel protector and move it toward the LCD panel to install. Position the protector into the LCD panel tightly without leaving an opening.

Cleaning

NOTE
- Please be sure to keep the panel protector immobilized while cleaning it. Otherwise it may scratch the surface of the LCD panel. To hold the panel protector by hand, use a soft cloth to avoid dust or finger prints.
- Never use thinner, benzene, alcohol (ethanol, methanol, or isopropyl alcohol), abrasive cleaners, or other strong solvents, as these may cause damage to the cabinet or panel.
- It is recommended to use EIZO cleaning kit "ScreenCleaner" (option) to clean the panel.

The panel surface can be cleaned with a soft cloth such as cotton or lens paper.

If necessary stubborn stains can be removed by moistening part of the cloth with water to enhance its cleaning power.
